## Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsell Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from scatica which affected my heart. In the worst form, my limbs swelled from the ankles up. I blushed until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

## INDEPENDENCE

Senate and House Foreign Committees Will So Report.

SENATE RESOLUTION RADICAL.

First Broadside Fired in Congress Yesterday.

PREPARING TO RAISE REVENUE TO CARRY ON WAR.

Senators Lindsay, Wilson and Allen introduce Resolutions Favoring Intervention and Independence—Senator Mason Makes a Speech in Behalf of Recognition of the Cuban Republic. No New Developments in Diplomatic Phase of Spanish Situation.

Washington, April 13.—From a reliable source it was learned last night that the senate and house foreign committees had each agreed upon a report on the Spanish situation. The senate's is said to be the most radical of the two. It will declare for immediate intervention, a recognition of independence and the withdrawal of Spanish troops from the island of Cuba. The house committee's resolution empowers the president to interfere at once to restore peace on the island of Cuba and secure to the people thereof a firm, stable, and independent government of their own, and he is authorized to use the army and naval forces of the United States to secure this end.

MASON TALKS.

Speech by Illinois Senator on Cuban Independence.

Washington, April 13.—Three resolutions bearing upon the Cuban question were introduced in the senate yesterday, one by Mr. Lindsay (Dem., Ky.), directing that the contemplated operations against the Spanish army in Cuba be in concert with General Gomez, the supreme command to be vested in the commander of the United States forces, to the end that the independence of the Cubans be secured; the second by Mr. Wilson (Rep., Wash.), directing the president at once to take such steps as will secure to the Cuban people an independent republican form of government, and third by Mr. Allen (Pop., Neb.), declaring the existence of war in Cuba and directing the president to take steps to stop it and secure to the people of the island a stable and independent government. Following the introduction of the resolutions speeches were delivered by Mr. Pettus (Dem., Ala.), Mr. Mason (Rep., Ill.) and Mr. Butler (Pop., N. C.). Judge Pettus presented an argument that the congress could not delegate to the president the power to make war, either in a general or in a special sense, and declared that the making of any war without an express declaration by congress would be a disgrace to the nation.

Mr. Mason said in substance: "As before announced, in language which could not be misunderstood, I am for war, and have been since the hour our flag was lowered in Havana harbor and the lives of our citizens taken by the government of Spain. But I am and have been for this declaration of war only as a means of securing an honorable peace."

"I have no desire to destroy the Spanish nation, but her flag must be dishonored by surrendering her sovereignty over Cuban territory as an atonement for lowering our flag, sinking our ship, and murdering our men. I have been indulging in a hope that seemed almost a certainty that the executive would recommend intervention and independence to the Cuban republic. Intervention by force of arms as recommended by the president is war. If we can have armed intervention without recognizing the independence of Cuba and can have nothing else, I must accept the will of the majority, reserving to myself the right to respectfully protest and also reserving the right to fight for independence for the brave men, women and children in the island of Cuba."

Mr. Mason then went into the history of what had been done by this country in the past regarding recognition and continued: "Mr. President it seems almost like insulting the intelligence of my colleagues to call attention to civil government existing in Cuba and controlled by the insurgents, when it is known that through that government they have collected hundreds of thousands of dollars and maintained a standing army that has kept at bay nearly 200,000 armed and equipped Spanish soldiers and has given evidence of as great bravery and endurance as any army in all the recorded past. The brilliant orator from Iowa said the other day in the other house that 'hovering above the dark waters of that mysterious harbor of Havana, the black-winged vulture watches for the dead, while over it and over all there is the eagle's piercing eye sternly watching for the truth.'"

"Mr. President, it is to continue to be an eagle, or is the avarice and greed of the nation to cause it to descend and partake of the vulture's food? Perez, writing to Amarguen said: 'The Yankies are hogs, and if you conquered your own independence they will absorb you.' Mr. President, did he tell the truth? Mr. President, are we going out on an errand of mercy loaded down with day books and journals? Are we to forget our citizens who went down in the harbor of Havana in our greed for gold and territory? Are we to leave the door open to compel additional terms from the insurgents who sacrificed their wives and children and their homes? Do we wish special treaties of commerce and leave the door open for that? Do we wish to relieve some American investors who have bought Spanish bonds and who wish to trade them for the bonds of the republic? Do we, worse still, wish to leave the door open to compel those brave men and women to accept some terms of autonomy or to pay blood money to the Spaniard or the shlylocks of our own land?"

"May I be forgiven if I express the hope that the heart of the executive may be touched in their behalf? May we not hope that their last, lingering look of life be not with suspicion and hatred upon your flag and mine; that it may not rest upon the hated color of the yellow flag of Spain, but that in their rap and parting moments they may be soothed and sustained by the sight of their own flag—the flag with a single star—the flag of the Republic of Cuba?"

GROSVENOR'S INTERPRETATION.  
He Tells the House What the President's Message Means.

General Grosvenor (Rep., O.) late yesterday afternoon in reply to an attack upon the policy of the administration, interpreted the recommendations in the president's message to mean a request for authority to use the army and navy of the United States to establish on the island of Cuba a government independent of Spain. It was regarded as an exceedingly important and significant announcement. In the brief debate yesterday the opening guns of the contest were fired. Broadside after broadside was exchanged and then the house adjourned. Mr. Leutz, an Ohio Democrat who drew the fire of General Grosvenor last Thursday, returned to the assault again, attacking what he termed the "vacillating" policy of the president, the midnight conferences at the white house with Senator Elkins and John J. McCook and asserting that the president's recommendations really meant that the United States should coerce the Cuban insurgents into an acceptance of Spain's scheme of autonomy.

Mr. Hepburn (Rep., Ia.) made a spirited reply denouncing the intimation of such a policy as little short of scoundrelism.

Then came General Grosvenor's important announcement upon which Mr. Bailey, the Democrat leader, countered, taking the position that if the president had meant to declare for the independence of Cuba he would have said so in specific words. The message was clear and lucid, he said, except as to the recommendations and it had required all the ingenuity of General Grosvenor to torture such an interpretation from them. In conclusion he declared that the president would not live to survive the odium of the American people.

IN STATUS QUO.

No New Developments in the Diplomatic Phase of the Spanish Situation.

Washington, April 13.—The diplomatic phase of the Spanish situation is in statu quo. There are no new negotiations, and no further developments in the old ones. It is the expectation that this status will continue for the present at least, while congress considers the subject. A definite understanding has been reached by the representatives of the six great powers of Europe that no additional action from that quarter would be opportune at this time.

The armistice has gone into effect in Cuba, but as yet no word has come as to the attitude of the insurgents. If they accept it the solution appears to be simple. If they do not accept it, the expectation of the Spanish government is that this will be made manifest within the next few days by continued hostilities by the forces of Gomez and others. If the Spanish troops are attacked while in a position that will defend themselves

and thereafter will feel free to take the aggressive. In granting the armistice it is known that the Spanish military authority did so as a tender to the insurgents for a mutual cessation of hostilities, but it is viewed as being a mutual undertaking so that if the insurgents do not accept the tender it is understood that it will not continue to operate as a means of keeping the Spanish troops passive while under fire.

Word reached here that the Spanish consul at Key West has retired from the consulate there because of threats said to have been made against his life. This is the first removal of a Spanish official in the United States as a result of present trouble. The consul at Key West reported the circumstances in his case to the Spanish minister at Washington and said the feeling extended beyond the consul, and included those Spaniards at Key West who supported the home government. As a result the consul and a number of Spaniards who have been living there have removed to Tampa, where it is said their safety is better assured.

The Spanish minister Senor Polo, feels that his prediction of a more hopeful turn in affairs has been verified, and there are no signs of impending departure of the minister and his staff.

Raising Revenues.  
Washington, April 13.—The ways and means committee have reached an agreement as to raising \$100,000,000 of revenue in case of war. It includes the raising of the tax on beer and tobacco and placing a tax on tea and coffee. They have also agreed to issue a popular loan of \$500,000,000 and issue certificates of indebtedness.

Mr. and Mrs. Gladstone.  
Hawarden, April 13.—The bulletin issued as to Mr. Gladstone's condition says: "Mr. Gladstone is rather better." Mrs. Gladstone is suffering from an attack of influenza.

RUSSIANS THE AGGRESSORS.

Tried to Take Possession of a Chinese Town.

Pekin, April 13.—Details of the conflict between the Russians and Chinese at Kin Chon tend to show the disturbance was due to an attempt made by the Russian commander to take possession of the town. He tried to persuade the Chinese general that Kin Chon belonged to Russia by virtue of the recent agreement arrived at between China and Russia regarding the cession of Port Arthur and Ta Lien Wan. The Russian commander demanded the evacuation of the place within 24 hours, the Chinese refused to leave, and the matter was eventually referred to Pekin and St. Petersburg.

CUSTOM ABOLISHED.

Old Tree Exercise Given Up by Harvard Students.

Cambridge, Mass., April 13.—The Harvard senior class has voted to abolish the old tree exercise on class day, owing to an intimation from the corporation that if this year's class did not make the change voluntarily subsequent classes would be compelled to make the changes. The class voted to move the exercises from the old enclosure around the tree to the Delta in front of memorial hall, where the statue of John Harvard stands. The scolding for flowers will be entirely abolished, but cheering and singing will be made more of and other features will be introduced.

UPRISINGS IN COREA.

Russian Representative Leaves the Country.

Yokohama, April 13.—There have been fresh uprisings in the provinces of Corea and changes have been made in the cabinet. M. Speyer, the Russian chargé d'affaires at Seoul and M. Kuril Alexieff, late Russian representative in the Corea department of customs, have left the country for China.

Ohio Legislator Shocked.

Delaware, O., April 13.—Representative T. R. Smith was passing through the woods on his farm when a stroke of lightning struck a tree immediately in front of him, enveloping it in flames. He was seriously shocked, but otherwise uninjured.

Unprecedented Scene.

As the elevator came to a stop and the consul general stepped out a scene occurred unprecedented in the history of the great building. Hat in hand General Lee passed into the corridor and some one said, "Now boys!" and three cheering cheers went echoing down the long hall. Then there was another outburst and people poured forth from every room. The cheering caused intense excitement and it was some moments before quiet could be restored.

Unprecedented Scene.

The consul general, Secretary Sherman and Assistant Secretary Day in a few minutes entered a carriage and were driven to the white house. General Lee got another ovation on his way over.

At the white house the party was shown to the library where the chief executive accorded a hearty reception to the consul general. The only persons present at the meeting were the president, Secretary Sherman, Assistant Secretary Day and General Lee. Secretary Sherman remained with the others for about half an hour and then returned to the state department. After being with the president fully an hour Judge Day and General Lee took their departure, the latter going to his hotel.

An immense crowd augmented by a number of ladies, who attended Mrs. McKinley's reception, was on the porch when the two came down stairs and General Lee was given a tremendous ovation.

Last night the Marine band of this city and the Seventy-First Regiment band of New York city came over for the special purpose serenading Consul General Lee at the Shoreham hotel. Fully 5,000 people had gathered in front of the hotel by 8 o'clock.

The general appeared on the balcony and, after denying that he deserved such an ovation, thanked the people for their good will and kindness.

Consul General Lee.

There had been anything unusual in his experience during the last several months. How long he will remain in Washington is not known but it is assumed that he will make his wishes conform to those of the president's as to the length of his stay.

News that General Lee was on his way to the state department spread rapidly and when the carriage drew up at the south front of the building a great crowd was assembled on the portico.

A rousing cheer went up as General Lee stepped from the vehicle and bowing right and left, hurried into the building. The cheers had apprised the clerks and other employees of the big building of his coming and there was a wild rush for the state department corridor. Clerks left their desks without leave, officers of the army and navy joined the rush and for the time being the discipline of the building was relaxed. The crowd lined up in front of the elevator shaft leaving a lane from the door to the secretary's office.

## OVATION TO GEN. LEE

Washington Gives Him an Enthusiastic Reception.

CALLS ON THE PRESIDENT.

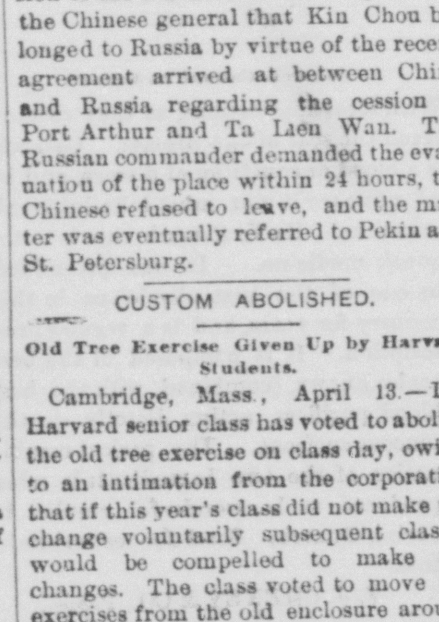

Lady Admiral Present Him with a Bouquet Tied with National Colors and Bearing a Confederate Battle Flag—An Unprecedented Scene at the State Department.

Washington, April 13.—Long before the hour set for the arrival of General Lee's train yesterday afternoon a crowd began to gather that completely filled the station and Sixth street adjacent on the east and extended far out into Pennsylvania avenue. The general occupied the last car in his train and when it was known that he had reached the station there was a tremendous rush to get a look at him. By the time he was ready to alight the crowd was so dense about the train that even with the assistance of a platoon of police it was with difficulty he reached the platform.

Several personal friends of the general, among them a number of ladies, pressed forward and finally succeeded in grasping him by the hand.

Bouquet and Confederate Flag.  
One of the ladies presented him a bouquet of roses tied together by ribbon of the national colors and bearing a tiny confederate battle flag. Immediately the crowd began to cheer, and round after round of applause greeted him as he walked slowly and uncovered down the long platform of the station. On reaching the B street entrance General Lee entered a state department carriage and was rapidly driven to the state department.

The general has not perceptibly changed in appearance since he was last in Washington. His eye was as bright and his step as elastic as ever, and nothing in his manner indicated

## BIG IRON COMBINE.

Non-Bessemer Manufacturers Forming a National Organization.

Cleveland, April 13.—The initial steps toward the formation of one of the biggest combines in the history of the iron business was taken here yesterday. Practically all the manufacturers of foundry iron between the Allegheny and Rocky mountains were represented. The men who are to go into the new combination are what are known as non-Bessemer men—the manufacturers of foundry iron who do not work Bessemer ore. The non-Bessemer manufacturers of the south and of the east have already formed two strong organizations. The meeting of the western men here was for the purpose of forming the manufacturers in this territory into a sub-organization and then merging all the three organizations, covering the east, west and south, into one big combine.

LINCOLN GREENBACKS.

Resolution Introduced in the Ohio House Suggests Them.

Columbus, O., April 13.—Mr. Bracken has introduced the following resolution in the general assembly:

Resolved, That the congress of the United States be and is hereby respectfully requested to issue every dollar required by the government to average the loss of the Maine and free Cuba in good old Abe Lincoln greenbacks, good for all debts, public and private, and without any exception clause thereon, thus saving the expense of interest which, as a result of the exactions of the money lenders during the late rebellion has become more burdensome than war itself.

Resolved, That the governor be requested to send a certified copy of these resolutions to the senate and house of representatives at Washington.

MISS MILLER'S WILL.

Over One Hundred Legacies—Voluntarily Document.

Shelbyville, Ky., April 13.—Miss Ann Miller's will has just been probated. Miss Miller died several weeks ago and she was reported the wealthiest woman in Shelby county, her fortune being estimated at over \$100,000. Her bequests range from \$10,000 to \$100 each and the legacies number over 100. The instrument is the most voluminous ever probated in the county. Miss Miller left no direct heirs and she gave largely to churches, orphanages and seminaries.

OHIO LEGISLATURE.

Law Passed Making Dogs Property the Same as Cattle.

Columbus, O., April 13.—The senate yesterday made a law of Representative O'Neill's bill making dogs property in the same category with cattle, hogs and the like. The theft of a dog hereafter will be larceny, and malicious killing of one will give a right of action for damage, both exemplary and for the actual value of the dog. Dogs wandering in the highways may be impounded the same as a horse or cow.

CHILDREN POISONED.

Drunk Drugged Coffee and Two Are Dead.

Hopkinsville, Ky., April 13.—The family of Lewis Campbell, was poisoned from drinking coffee, and two children, 2 and 4 years old, have died. The mother and other children are dangerously ill. It is believed that a box of rough on rats had been mixed in the food of the family. An investigation is being made.

Not Hostile to Spain.

Madrid, April 13.—Senator Sagasta, the premier, on leaving the palace last evening after his daily visit to the Queen Regent, informed the newspaper representatives that the government was waiting for the full text of President McKinley's message before acting on its contents. He said also that he considered the message so far as it was known to him, not hostile in tone toward Spain, and that he would continue desirous of peace, for obtaining which the armistice in Cuba afforded the means.

Lexingtonites Disappointed.

Lexington, Ky., April 13.—Prominent citizens here, without regard to party, say the president's message is a disappointing document. The general opinion is that it will inflame congress and cause hasty and violent action on its part. One old federal soldier says McKinley ought to be commander-in-chief of the Salvation Army. Colonel W. C. P. Breckinridge thinks the message intended to prevent a declaration of war by congress.

Sued the Sun for Libel.

New York, April 13.—Robert Barr, the English novelist, has obtained a verdict of \$1,000 damages in a libel suit against The Sun newspaper in the United States court. On May 17, 1897, The Sun published a paragraph saying that Mr. Barr had been "removed to an asylum for imbeciles." This was the statement complained of.

Established a New Record.

Cincinnati, April 13.—The fastest race of the season was run over the Newport track yesterday and a new record for a mile and 60 yards on that course was established. Itup under the remarkable time, and did it with ease. She covered the distance in 1:43 flat, running the first mile in 1:29.

Artillery and for thirty years of the Babcock & Munroe Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from catarrhs which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

## INDEPENDENCE

Senate and House Foreign Committees Will So Report.

SENATE RESOLUTION RADICAL.

First Broadside Fired in Congress Yesterday.

PREPARING TO RAISE REVENUE TO CARRY ON WAR.

Senators Lindsay, Wilson and Allen introduce Resolutions Favoring Intervention and Independence—Senator Mason Makes a Speech in Behalf of Recognition of the Cuban Republic. No New Developments in Diplomatic Phase of Spanish Situation.

Washington, April 13.—From a reliable source it was learned last night that the senate and house foreign committees had each agreed upon a report on the Spanish situation. The senate's is said to be the most radical of the two. It will declare for immediate intervention, a recognition of independence and the withdrawal of Spanish troops from the island of Cuba. The house committee's resolution empowers the president to interfere at once to restore peace on the island of Cuba and secure to the people thereof a firm, stable, and independent government of their own, and he is authorized to use the army and naval forces of the United States to secure this end.

**MASON TALKS.**  
Speech by Illinois Senator on Cuban Independence.

Washington, April 13.—Three resolutions bearing upon the Cuban question were introduced in the senate yesterday, one by Mr. Lindsay (Dem., Ky.), directing that the contemplated operations against the Spanish army in Cuba be in concert with General Gomez, the supreme command to be vested in the commander of the United States forces, to the end that the independence of the Cubans be secured; the second by Mr. Wilson (Rep., Wash.), directing the president at once to take such steps as will secure to the Cuban people an independent republican form of the government, and third by Mr. Allen (Pop., Neb.), declaring the existence of war in Cuba and directing the president to take steps to stop it and secure to the people of the island a stable and independent government. Following the introduction of the resolutions speeches were delivered by Mr. Pettus (Dem., Ala.), Mr. Mason (Rep., Ill.) and Mr. Butler (Pop., N. C.). Judge Pettus presented an argument that the congress could not delegate to the president the power to make war, either in a general or in a special sense, and declared that the making of any war without an express declaration by congress would be a disgrace to the nation.

Mr. Mason said in substance: "As before announced, in language which could not be misunderstood, I am for war, and have been since the hour our flag was lowered in Havana harbor and the lives of our citizens taken by the government of Spain. But I am and have been for this declaration of war only as a means of securing an honorable peace."

"I have no desire to destroy the Spanish nation, but her flag must be dishonored by surrendering her sovereignty over Cuban territory as an atonement for lowering our flag, sinking

our ship, and murdering our men. I have been indulging in a hope that seemed almost a certainty that the executive would recommend intervention and independence to the Cuban republic. Intervention by force of arms as recommended by the president is war. If we can have armed intervention without recognizing the independence of Cuba and can have nothing else, I must accept the will of the majority, reserving to myself the right to respectfully protest and also reserving the right to fight for independence for the brave men, women and children in the island of Cuba."

Mr. Mason then went into the history of what had been done by this country in the past regarding recognition and intervention. "Mr. President it seems almost like insulting the intelligence of my colleagues to call attention to civil government existing in Cuba and controlled by the insurgents, when it is known that through that government they have collected hundreds of thousands of dollars and maintained a standing army that has kept at bay nearly 300,000 armed and equipped Spanish soldiers and has given evidence of as great bravery and endurance as any army in all the recorded past. The brilliant orator from Iowa said the other day in the other house that 'hovering above the dark waters of that mysterious harbor of Havana, the black winged vulture watches for the dead, while over it and over all there is the eagle's piercing eye sternly watching for the truth.'"

"Mr. President, is it to continue to be an eagle, or is the avenger and greed of the nation to cause it to descend and partake of the vulture's food? Perez, writing to Aranguren said: 'The Yankees are hogs, and if you conquered your own independence they will absorb you.' Mr. President, did he tell the truth? Mr. President, are we going out on an errand of mercy loaded down with day books and journals? Are we to forget our citizens who went down in the harbor of Havana in our greed for gold and territory? Are we to leave the door open to compel additional terms from the insurgents who sacrificed their wives and children and their homes? Do we wish special treaties of commerce and leave the door open for that? Do we wish to relieve some American investors who have bought Spanish bonds and who wish to trade them for the bonds of the republic? Do we, worse still, wish to leave the door open to compel those brave men and women to accept some terms of autonomy or to pay blood money to the Spaniard or the shyllocks of our own land?"

"May I be forgiven if I express the hope that the heart of the executive may be touched in their behalf. May we not hope that their last, lingering look of life be not with suspicion and hatred upon our flag and mine; that it may not rest upon the hated color of the yellow flag of Spain, but that in their rapt and parting moments they may be soothed and sustained by the sight of their own flag—the flag with a single star—the flag of the Republic of Cuba?"

**GROSVENOR'S INTERPRETATION.**  
He Tells the House What the President's Message Means.

General Grosvenor (Rep., O.) late yesterday afternoon in reply to an attack upon the policy of the administration, interpreted the recommendations in the president's message to mean a request for authority to use the army and navy of the United States to establish on the island of Cuba a government independent of Spain. It was regarded as an exceedingly important and significant announcement. In the brief debate yesterday the opening guns of the contest were fired. Broadside after broadside was exchanged and then the house adjourned. Mr. Lutz, an Ohio Democrat who drew the fire of General Grosvenor last Thursday, returned to the assault again, attacking what he termed the "vacillating" policy of the president, the midnight conferences at the white house with Senator Elkins and John J. McCook and asserting that the president's recommendations really meant that the United States should coerce the Cuban insurgents into an acceptance of Spain's scheme of autonomy.

Mr. Hepburn (Rep., Ia.) made a spirited reply denouncing the intimation of such a policy as little short of scoundrelism.

Then came General Grosvenor's important announcement upon which Mr. Bailey, the Democrat leader, countered, taking the position that if the president had meant to declare for the independence of Cuba he would have said so in specific words. The message was clear and lucid, he said, except as to the recommendations and it had required all the ingenuity of General Grosvenor to torture such an interpretation from them. In conclusion he declared that the president who would coerce the Cuban patriots would not live to survive the odium of the American people.

**IN STATUS QUO.**  
No New Developments in the Diplomatic Phase of the Spanish Situation.

Washington, April 13.—The diplomatic phase of the Spanish situation is in statu quo. There are no new negotiations, and no further developments in the old ones. It is the expectation that this status will continue for the present at least, while congress considers the subject. A definite understanding has been reached by the representatives of the six great powers of Europe that no additional action from that quarter would be opportune at this time.

The armistice has gone into effect in Cuba, but as yet no word has come as to the attitude of the insurgents. If they accept it the solution appears to be simple. If they do not accept it, the expectation of the Spanish government is that this will be made manifest within the next few days by continued hostilities for the forces of Gomez and others. If the Spanish troops are attacked while in position, they will defend themselves

and thereafter will feel free to take the aggressive. In granting the armistice it is known that the Spanish military authority did so as a tender to the insurgents for a mutual cessation of hostilities, but is viewed as being a mutual undertaking so that if the insurgents do not accept the tender it is understood that it will not continue to operate as a means of keeping the Spanish troops passive while under fire.

Word reached here that the Spanish consul at Key West has retired from the consulate there because of threats said to have been made against his life. This is the first removal of a Spanish official in the United States as a result of present trouble. The consul at Key West reported the circumstances in his case to the Spanish minister at Washington and said the feeling extended beyond the consul, and included those Spaniards at Key West who supported the home government. As a result the consul and a number of Spaniards who have been living there have been removed to Tampa, where it is said their safety is better assured.

The Spanish minister Senor Polo, feels that his prediction of a more hopeful turn in affairs has been verified, and there are no signs of impending departure of the minister and his staff.

**Raising Revenues.**  
Washington, April 13.—The ways and means committee have reached an agreement as to raising \$100,000,000 of revenue in case of war. It includes the raising of the tax on beer and tobacco and placing a tax on tea and coffee. They have also agreed to issue a popular loan of \$500,000,000 and issue certificates of indebtedness.

**Mr. and Mrs. Gladstone.**  
Hawarden, April 13.—The bulletin issued as to Mr. Gladstone's condition says: "Mr. Gladstone is rather better." Mrs. Gladstone is suffering from an attack of influenza.

**RUSSIANS THE AGGRESSORS.**  
Tried to Take Possession of a Chinese Town.

Pekin, April 13.—Details of the conflict between the Russians and Chinese at Kin Chou tend to show the disturbance was due to an attempt made by the Russian commander to take possession of the town. He tried to persuade the Chinese general that Kin Chou belonged to Russia by virtue of the recent agreement arrived at between China and Russia regarding the cession of Port Arthur and Ta Lien Wan. The Russian commander demanded the evacuation of the place within 24 hours, the Chinese refused to leave, and the matter was eventually referred to Pekin and St. Petersburg.

**CUSTOM ABOLISHED.**  
Old Tree Exercise Given Up by Harvard Students.

Cambridge, Mass., April 13.—The Harvard senior class has voted to abolish the old tree exercise on class day, owing to an intimation from the corporation that if this year's class did not make the change voluntarily subsequent classes would be compelled to make the changes. The class voted to move the exercises from the old enclosure around the tree to the Delta in front of memorial hall, where the statue of John Harvard stands. The scolding for flowers will be entirely abolished but cheering and singing will be made more of and other features will be introduced.

**UPRISINGS IN COREA.**

Yokohama, April 13.—There have been fresh uprisings in the provinces of Corea and changes have been made in the cabinet. M. Speyer, the Russian charge d'affaires at Seoul and M. Kuril Alexeff, late Russian representative in the Corea department of customs, have left the country for China.

## Ovation to Gen. Lee

Washington Gives Him an Enthusiastic Reception.

CALLS ON THE PRESIDENT.

Lady Admiral Present Him with a Bouquet Tied with National Colors and Bearing a Confederate Battle Flag—An Unprecedented Scene at the State Department.

Washington, April 13.—Long before the hour set for the arrival of General Lee's train yesterday afternoon a crowd began to gather that completely filled the station and Sixth street adjacent on the east and extended far out into Pennsylvania avenue. The general occupied the last car in his train and when it was known that he had reached the station there was a tremendous rush to get a look at him. By the time he was ready to alight the crowd was so dense about the train that even with the assistance of a platoon of police it was with difficulty he reached the platform. Several personal friends of the general, among them a number of ladies, pressed forward and finally succeeded in grasping him by the hand.

**Bouquet and Confederate Flag.**  
One of the ladies presented him a bouquet of roses tied together by ribbon of the national colors and bearing a tiny confederate battle flag. Immediately the crowd began to cheer, and round after round of applause greeted him as he walked slowly and uncovered down the long platform of the station. On reaching the B street entrance General Lee entered a state department carriage and was rapidly driven to the state department.

The general has not perceptibly changed in appearance since he was last in Washington. His eye was as bright and his step as elastic as ever, and nothing in his manner indicated

CONSUL GENERAL LEE.

that there had been anything unusual in his experience during the last several months. How long he will remain in Washington is not known but it is assumed that he will make his wishes conform to those of the president's as to the length of his stay.

News that General Lee was on his way to the state department spread rapidly and when the carriage drew up at the south front of the building a big crowd was assembled on the portico. A rousing cheer went up as General Lee stepped from the vehicle and bowing right and left, hurried into the building. The cheers had apprised the clerks and other employees of the big building of his coming and there was a wild rush for the state department corridor. Clerks left their desks without leave, officers of the army and navy joined the rush and for the time being the discipline of the building was relaxed. The crowd lined up in front of the elevator shaft leaving a lane from the door to the secretary's office.

**Unprecedented Scene.**  
As the elevator came to a stop and the consul general stepped out a scene occurred unprecedented in the history of the great building. Hat in hand General Lee passed into the corridor and some one said, "Now boys!" and three rousing cheers went echoing down the long halls. Then there was another outburst and people poured forth from every room. The cheering caused intense excitement and it was some moments before quiet could be restored. The consul general, Secretary Sherman and Assistant Secretary Day in a few minutes entered a carriage and were driven to the white house. General Lee getting another ovation on his way over.

At the white house the party was shown to the library where the chief executive accorded a hearty reception to the consul general. The only persons present at the meeting were the president, Secretary Sherman, Assistant Secretary Day and General Lee. Secretary Sherman remained with the others for about half an hour and then returned to the state department. After being with the president fully an hour Judge Day and General Lee took their departure, the latter going to his hotel.

An immense crowd augmented by a number of ladies, who attended Mrs. McKinley's reception, was on the portico when the two came down stairs and General Lee was given a tremendous ovation.

Last night the Marine band of this city and the Seventy-First Regiment band of New York city which came over for the special purpose serenaded Consul General Lee at the Shoreham hotel. Fully 5,000 people had gathered in front of the hotel by 8 o'clock. The general appeared on the balcony and, after denying that he deserved such an ovation, thanked the people for their good will and kindness.

## BIG IRON COMBINE.

Non-Bessemer Manufacturers Forming a National Organization.

Cleveland, April 13.—The initial steps toward the formation of one of the biggest combines in the history of the iron business was taken here yesterday. Practically all the manufacturers of foundry iron between the Allegheny and Rocky mountains were represented. The men who are to go into the new combination are what are known as non-Bessemer men—the manufacturers of foundry iron who do not work Bessemer ore. The non-Bessemer manufacturers of the south and of the east have already formed two strong organizations. The meeting of the western men here was for the purpose of forming the manufacturers in this territory into a sub-organization and then merging all the three organizations, governing the east, west and south, into one big combine.

Resolution Introduced in the Ohio House Suggests Them.

Columbus, O., April 13.—Mr. Bracken has introduced the following resolution in the general assembly:  
Resolved, That the congress of the United States be and is hereby respectfully requested to issue every dollar required by the government to advance the loss of the Maine and free Cuba in good old Abe Lincoln greenbacks, good for all debts, public and private, and without any exception clause thereon, thus saving the expense of interest which, as a result of the operations of the money lenders during the late rebellion has become more burdensome than war itself.

Resolved, That the governor be requested to send a certified copy of these resolutions to the senate and house of representatives at Washington.

**MISS MILLER'S WILL.**

Shelbyville, Ky., April 13.—Miss Ann Miller's will has just been probated. Miss Miller died several weeks ago and she was reported the wealthiest woman in Shelby county, her fortune being estimated at over \$100,000. Her bequests range from \$10,000 to \$100 each and the legatees number over 100. The instrument is the most voluminous ever probated in the county. Miss Miller left no direct heirs and she gave largely to churches, orphanages and seminaries.

**OHIO LEGISLATURE.**  
Law Passed Making Dogs Property the Same as Cattle.

Columbus, O., April 13.—The senate yesterday made a law of Representative O'Neill's bill making dogs property in the same category with cattle, hogs and the like. The theft of a dog hereafter will be larceny, and malicious killing of one will give a right of action for damage, both exemplary and for the actual value of the dog. Dogs wandering in the highways may be impounded the same as a horse or cow.

**CHILDREN POISONED.**  
Drank Drugged Coffee and Two Are Dead.

Hopkinsville, Ky., April 13.—The family of Lewis Campbell, was poisoned from drinking coffee, and two children, 2 and 4 years old, have died. The mother and other children are dangerously ill. It is believed that a box of rough on rats had been mixed in the food of the family. An investigation is being made.

**Not Hostile to Spain.**  
Madrid, April 13.—Senor Sagasta, the premier, on leaving the palace last evening after his daily visit to the Queen Regent, informed the newspaper representatives that the government was waiting for the full text of President McKinley's message before acting on its contents. He said also that he considered the message so far as it was known to him, not hostile in tone toward Spain, and that he would continue desirous of peace, for obtaining which the armistice in Cuba afforded the means.

**Lexington Disappointed.**  
Lexington, Ky., April 13.—Prominent citizens here, without regard to party, say the president's message is a disappointing document. The general opinion is that it will inflame congress and cause hasty and violent action on its part. One old federal soldier says McKinley ought to be commander-in-chief of the Salvation Army. Colonel W. C. P. Breckinridge thinks the message intended to prevent a declaration of war by congress.

**Sued the Sun For Libel.**  
New York, April 13.—Robert Barr, the English novelist, has obtained a verdict of \$1,000 damages in a libel suit against The Sun newspaper in the United States court. On May 17, 1893, The Sun published a paragraph saying that Mr. Barr had been "removed to an asylum for imbeciles." This was the statement complained of.

Yerkes and by their bill tender back to the defendant the \$47,000 paid to them on account of the purchase. ### A Pleasant Surprise.

Miss Edna M. Scanlan was given a pleasant surprise the last day of her successful school term at the Stanfield school, April 9. Just as school was dismissed at noon a large number of patrons and friends appeared with baskets well filled, taking the teacher completely by surprise. In the afternoon a very nice program, prepared under the instruction of Miss Scanlan, was witnessed by the large crowd present, many of whom were from Seymour. At the close Robert Blair delivered a prepared address in behalf of the pupils, speaking of their love and esteem for their highly honored teacher, and that she had left nothing undone to make her school a success, being faithful to every duty. He stated that by her teaching and her example they had learned to appreciate more and more the sublime beauties of truth, and that her school term would long be remembered both by pupils and patrons. The occasion was greatly enjoyed by all present.

### A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price. We have also determined to make the platinum or dead finish cabinet photos (by some called cabinetette) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen. Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing paper, and tone in the same kind of gold and aristocratic platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

**ONE OF TWO WAYS.**  
The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

**CHIEF CAUSE.**  
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. ## INDEPENDENCE

Senate and House Foreign Committees Will So Report.

SENATE RESOLUTION RADICAL.

First Broadside Fired in Congress Yesterday.

PREPARING TO RAISE REVENUE TO CARRY ON WAR.

Senators Lindsay, Wilson and Allen introduce Resolutions Favoring Intervention and Independence—Senator Mason Makes a Speech in Behalf of Recognition of the Cuban Republic. No New Developments in Diplomatic Phase of Spanish Situation.

Washington, April 13.—From a reliable source it was learned last night that the senate and house foreign committees had each agreed upon a report on the Spanish situation. The senate's is said to be the most radical of the two. It will declare for immediate intervention, a recognition of independence and the withdrawal of Spanish troops from the island of Cuba. The house committee's resolution empowers the president to interfere at once to restore peace on the island of Cuba and secure to the people thereof a firm, stable, and independent government of their own, and he is authorized to use the army and naval forces of the United States to secure this end.

MASON TALKS.

Speech by Illinois Senator on Cuban Independence.

Washington, April 13.—Three resolutions bearing upon the Cuban question were introduced in the senate yesterday, one by Mr. Lindsay (Dem., Ky.), directing that the contemplated operations against the Spanish army in Cuba be in concert with General Gomez, the supreme command to be vested in the commander of the United States forces, to the end that the independence of the Cubans be secured; the second by Mr. Wilson (Rep., Wash.), directing the president at once to take such steps as will secure to the Cuban people an independent republican form of the government, and third by Mr. Allen (Pop., Neb.), declaring the existence of war in Cuba and directing the president to take steps to stop it and secure to the people of the island a stable and independent government. Following the introduction of the resolutions speeches were delivered by Mr. Pettus (Dem., Ala.), Mr. Mason (Rep., Ill.) and Mr. Butler (Pop., N. C.). Judge Pettus presented an argument that the congress could not delegate to the president the power to make war, either in a general or in a special sense, and declared that the making of any war without an express declaration by congress would be a disgrace to the nation.

Mr. Mason said in substance: "As before announced, in language which could not be misunderstood, I am for war, and have been since the hour our flag was lowered in Havana harbor and the lives of our citizens taken by the government of Spain. But I am and have been for this declaration of war only as a means of securing an honorable peace."

"I have no desire to destroy the Spanish nation, but her flag must be dishonored by surrendering her sovereignty over Cuban territory as an atonement for lowering our flag, sinking

In J. Penmore Cooper's Leather Stocking Tales, we read stories of wonderful agility, physical endurance and the unerring accuracy of the eye of the American Indian when he reigned supreme over this continent. Before he was debauched by modern civilization, he was a magnificent specimen of physical manhood. He lived entirely in the open air, and blood poisoning through the arteries and corrects all circulatory disturbances. It dispels headaches, nervousness, drowsiness, lassitude, and drives out all impurities of all cases of consumption, bronchitis, asthma and diseases of the air-passages. It gives sound and refreshing sleep, drives away all bodily and mental fatigue and imparts vigor and health to every organ of the body. Medicine dealers sell it, and have nothing else, "just as good."

Dr. Pierce's Pleasant Pellets are sure, speedy and permanent cure for constipation. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe. Found at all medicine stores.

our ship, and murdering our men. I have been indulging in a hope that seemed almost a certainty that the executive would recommend intervention and independence to the Cuban republic. Intervention by force of arms as recommended by the president is war. If we can have armed intervention without recognizing the independence of Cuba and can have nothing else, I must accept the will of the majority, reserving to myself the right to respectfully protest and also reserving the right to fight for independence for the brave men, women and children in the island of Cuba."

Mr. Mason then went into the history of what had been done by this country in the past regarding recognition and continued: "Mr. President it seems almost like insulting the intelligence of my colleagues to call attention to civil government existing in Cuba and controlled by the insurgents, when it is known that through that government they have collected hundreds of thousands of dollars and maintained a standing army that has kept at bay nearly 200,000 armed and equipped Spanish soldiers and has given evidence of as great bravery and endurance as any army in all the recorded past. The brilliant orator from Iowa said the other day in the other house that 'hovering above the dark waters of that mysterious harbor of Havana, the black winged vulture watches for the dead, while over it and over all there is the eagle's piercing eye sternly watching for the truth.'"

"Mr. President, is it to continue to be an eagle, or is the aversion and greed of the nation to cause it to descend and partake of the vulture's food? Perez, writing to Aranguren said: 'The Yankees are hogs, and if you conquered your own independence they will absorb you.' Mr. President, did he tell the truth? Mr. President, are we going out on an errand of mercy loaded down with day books and journals? Are we to forget our citizens who went down in the harbor of Havana in our greed for gold and territory? Are we to leave the door open to compel additional terms from the insurgents who sacrificed their wives and children and their homes? Do we wish special treaties of commerce and leave the door open for that? Do we wish to relieve some American investors who have bought Spanish bonds and who wish to trade them for the bonds of the republic? Do we, worse still, wish to leave the door open to compel those brave men and women to accept some terms of autonomy or to pay blood money to the Spaniard or the slylocks of our own land?"

"May I be forgiven if I express the hope that the heart of the executive may be touched in their behalf? May we not hope that their last, lingering look of life be not with suspicion and hatred upon your flag and mine; that it may not rest upon the hated color of the yellow flag of Spain, but that in their rapt and parting moments they may be soothed and sustained by the sight of their own flag—the flag with a single star—the flag of the Republic of Cuba?"

GROSVENOR'S INTERPRETATION.

He Tells the House What the President's Message Means.

General Grosvenor (Rep., O.) late yesterday afternoon in reply to an attack upon the policy of the administration, interpreted the recommendations in the president's message to mean a request for authority to use the army and navy of the United States to establish on the island of Cuba a government independent of Spain. It was regarded as an exceedingly important and significant announcement. In the brief debate yesterday the opening guns of the contest were fired. Broadside after broadside was exchanged and then the house adjourned. Mr. Lutz, an Ohio Democrat who drew the fire of General Grosvenor last Thursday, returned to the assault again, attacking what he termed the "vaccinating" policy of the president, the midnight conferences at the white house with Senator Elkins and John J. McCook and asserting that the president's recommendations really meant that the United States should coerce the Cuban insurgents into an acceptance of Spain's scheme of autonomy.

Mr. Hepburn (Rep. La.), made a spirited reply denouncing the intimation of such a policy as little short of scoundrelism.

Then came General Grosvenor's important announcement upon which Mr. Bailey, the Democrat leader, countered, taking the position that if the independence of Cuba he would have said so in specific words. The message was clear and lucid, he said, except as to the recommendations and it had required all the ingenuity of General Grosvenor to torture such an interpretation from them. In conclusion he declared that the president who would coerce the Cuban patriots would not live to survive the odium of the American people.

IN STATUS QUO.

No New Developments in the Diplomatic Phase of the Spanish Situation.

Washington, April 13.—The diplomatic phase of the Spanish situation is in statu quo. There are no new negotiations, and no further developments in the old ones. It is the expectation that this status will continue for the present at least, while congress considers the subject. A definite understanding has been reached by the representatives of the six great powers of Europe that no additional action from that quarter would be opportune at this time.

The armistice has gone into effect in Cuba, but as yet no word has come as to the attitude of the insurgents. If they accept it the solution appears to be simple. If they do not accept it, the expectation of the Spanish government is that this will be made manifest within the next few days by continued hostilities by the forces of Gomez and others. If the Spanish troops are attacked while in motion, they will defend themselves.

and thereafter will feel free to take the aggressive. In granting the armistice it is known that the Spanish military authority did so as a tender to the insurgents for a mutual cessation of hostilities, but is viewed as being a mutual undertaking so that if the insurgents do not accept the tender it is understood that it will not continue to operate as a means of keeping the Spanish troops passive while under fire.

Word reached here that the Spanish consul at Key West has retired from the consulate there because of threats said to have been made against his life. This is the first removal of a Spanish official in the United States as a result of present trouble. The consul at Key West reported the circumstances in his case to the Spanish minister at Washington and said the feeling extended beyond the consul, and included those Spaniards at Key West who supported the home government. As a result the consul and a number of Spaniards who have been living there have removed to Tampa, where it is said their safety is better assured.

The Spanish minister Senor Polo, feels that his prediction of a more hopeful turn in affairs has been verified, and there are no signs of impending departure of the minister and his staff.

Raising Revenues.—The ways and means committee have reached an agreement as to raising \$100,000,000 of revenue in case of war. It includes the raising of the tax on beer and tobacco and placing a tax on tea and coffee. They have also agreed to issue a popular loan of \$500,000,000 and issue certificates of indebtedness.

Mr. and Mrs. Gladstone.—Hawarden, April 13.—The bulletin issued as to Mr. Gladstone's condition says: "Mr. Gladstone is rather better." Mrs. Gladstone is suffering from an attack of influenza.

RUSSIANS THE AGGRESSORS.

Tried to Take Possession of a Chinese Town.

Peking, April 13.—Details of the conflict between the Russians and Chinese at Kin Chou tend to show the disturbance was due to an attempt made by the Russian commander to take possession of the town. He tried to persuade the Chinese general that Kin Chou belonged to Russia by virtue of the recent agreement arrived at between China and Russia regarding the cession of Port Arthur and Ta Lien Wan. The Russian commander demanded the evacuation of the place within 24 hours, the Chinese refused to leave, and the matter was eventually referred to Peking and St. Petersburg.

CUSTOM ABOLISHED.

Old Tree Exercise Given Up by Harvard Students.

Cambridge, Mass., April 13.—The Harvard senior class has voted to abolish the old tree exercise on class day, owing to an intimation from the corporation that if this year's class did not make the change voluntarily subsequent classes would be compelled to make the changes. The class voted to move the exercises from the old enclosure around the tree to the Delta in front of memorial hall, where the statue of John Harvard stands. The scurrilous for flowers will be entirely abolished but cheering and singing will be made more of and other features will be introduced.

Ohio Legislator Shocked.

Delaware, O., April 13.—Representative T. R. Smith was passing through the woods on his farm when a stroke of lightning struck a tree immediately in front of him, enveloping it in flames. He was seriously shocked, but otherwise uninjured.

Committed Murder for Easter Clothes.

## OVATION TO GEN. LEE

Washington Gives Him an Enthusiastic Reception.

CALLS ON THE PRESIDENT.

Lady Admiral Present Him with a Bouquet Tied with National Colors and Bearing a Confederate Battle Flag—An Unprecedented Scene at the State Department.

Washington, April 13.—Long before the hour set for the arrival of General Lee's train yesterday afternoon a crowd began to gather that completely filled the station and Sixth street adjacent on the east and extended far out into Pennsylvania avenue. The general occupied the last car in his train and when it was known that he had reached the station there was a tremendous rush to get a look at him. By the time he was ready to alight the crowd was so dense about the train that even with the assistance of a platoon of police it was with difficulty he reached the platform. Several personal friends of the general, among them a number of ladies, pressed forward and finally succeeded in grasping him by the hand.

Bouquet and Confederate Flag.—One of the ladies presented him a bouquet of roses tied together by ribbon of the national colors and bearing a tiny confederate battle flag. Immediately the crowd began to cheer, and round after round of applause greeted him as he walked slowly and uncovered down the long platform of the station.

On reaching the B street entrance General Lee entered a state department carriage and was rapidly driven to the state department.

The general has not perceptibly changed in appearance since he was last in Washington. His eye was as bright and his step as elastic as ever, and nothing in his manner indicated

that there had been anything unusual in his experience during the last several months. How long he will remain in Washington is not known but it is assumed that he will make his wishes conform to those of the president's as to the length of his stay.

News that General Lee was on his way to the state department spread rapidly and when the carriage drew up at the south front of the building a big crowd was assembled on the portico. A rousing cheer went up as General Lee stepped from the vehicle and bowing right and left, hurried into the building. The cheers had apprised the clerks and other employees of the big building of his coming and there was a wild rush for the state department corridor. Clerks left their desks without leave, officers of the army and navy joined the rush and for the time being the discipline of the building was relaxed. The crowd lined up in front of the elevator shaft leaving a lane from the door to the secretary's office.

Unprecedented Scene.—As the elevator came to a stop and the consul general stepped out a scene occurred unprecedented in the history of the great building. Hat in hand General Lee passed into the corridor and some one said, "Now boys!" and three rousing cheers went echoing down the long halls. Then there was another outburst and people poured forth from every room. The cheering caused intense excitement and it was some moments before quiet could be restored. The consul general, Secretary Sherman and Assistant Secretary Day in a few minutes entered a carriage and were driven to the white house. General Lee getting another ovation on his way over.

At the white house the party was shown to the library where the chief executive accorded a hearty reception to the consul general. The only persons present at the meeting were the president, Secretary Sherman, Assistant Secretary Day and General Lee. Secretary Sherman remained with the others for about half an hour and then returned to the state department. After being with the president fully an hour Judge Day and General Lee took their departure, the latter going to his hotel.

An immense crowd augmented by a number of ladies, who attended Mrs. McKinley's reception, was on the portico when the two came down stairs and General Lee was given a tremendous ovation.

Last night the Marine band of this city and the Seventy-First Regiment band of New York city which came over for the especial purpose serenaded Consul General Lee at the Shoreham hotel. Fully 5,000 people had gathered in front of the hotel by 8 o'clock.

The general appeared on the balcony and, after denying that he deserved such an ovation, thanked the people for their good will and kindness.

CONSUL GENERAL LEE.

## BIG IRON COMBINE.

Non-Bessemer Manufacturers Forming a National Organization.

Cleveland, April 13.—The initial steps toward the formation of one of the biggest combines in the history of the iron business was taken here yesterday. Practically all the manufacturers of foundry iron between the Allegheny and Rocky mountains were represented. The men who are to go into the new combination are what are known as non-Bessemer men—the manufacturers of foundry iron who do not work Bessemer ore. The non-Bessemer manufacturers of the south and of the east have already formed two strong organizations. The meeting of the western men here was for the purpose of forming the manufacturers in this territory into a sub-organization and then merging all the three organizations, covering the east, west and south, into one big combine.

LINCOLN GREENBACKS.

Resolution Introduced in the Ohio House Suggests Them.

Columbus, O., April 13.—Mr. Bracken has introduced the following resolution in the general assembly: Resolved, That the congress of the United States be and is hereby respectfully requested to issue every dollar required by the government to average the loss of the Maine and free Cuba in gold old Abe Lincoln greenbacks, 2-1/2 for all debts, public and private, and without any exception clause thereon, thus saving the exactions of the money lenders during the late rebellion has become more burdensome than war itself.

Resolved, That the governor be requested to send a certified copy of these resolutions to the senate and house of representatives at Washington.

MISS MILLER'S WILL.

Over One Hundred Legatees—Voluminous Document.

Shelbyville, Ky., April 13.—Miss Ann Miller's will has just been probated. Miss Miller died several weeks ago and she was reported the wealthiest woman in Shelby county, her fortune being estimated at over \$100,000. Her bequests range from \$10,000 to \$100 each and the legatees number over 100. The instrument is the most voluminous ever probated in the county. Miss Miller left no direct heirs and she gave largely to churches, orphanages and seminaries.

OHIO LEGISLATURE.

Law Passed Making Dogs Property the Same as Cattle.

Columbus, O., April 13.—The senate yesterday made a law of Representative O'Neill's bill making dogs property in the same category with cattle, hogs and the like. The theft of a dog hereafter will be larceny, and malicious killing of one will give a right of action for damage, both exemplary and for the actual value of the dog. Dogs wandering in the highways may be impounded the same as a horse or cow.

CHILDREN POISONED.

Drank Drugged Coffee and Two Are Dead.

Hopkinsville, Ky., April 13.—The family of Lewis Campbell, was poisoned from drinking coffee, and two children, 2 and 4 years old, have died. The mother and other children are dangerously ill. It is believed that a box of rough on rats had been mixed in the food of the family. An investigation is being made.

Not Hostile to Spain.

Madrid, April 13.—Senor Sagasta, the premier, on leaving the palace last evening after his daily visit to the Queen Regent, informed the newspaper representatives that the government was waiting for the full text of President McKinley's message before acting on its contents. He said also that it was considered the message so far as it was known to him, not hostile in tone toward Spain, and that he would continue desirous of peace for obtaining which the armistice in Cuba afforded the means.

Lexingtonites Disappointed.

Lexington, Ky., April 13.—Prominent citizens here, without regard to party, say the president's message is a disappointing document. The general opinion is that it will inflame congress and cause hasty and violent action on its part. One old federal soldier says McKinley ought to be commander-in-chief of the Salvation Army. Colonel W. C. P. Breckinridge thinks the message intended to prevent a declaration of war by congress.

Sued the Sun For Libel.

New York, April 13.—Robert Barr, the English novelist, has obtained a verdict of \$1,000 damages in a libel suit against The Sun newspaper in the United States court. On May 17, 1893, The Sun published a paragraph saying that Mr. Barr had been "removed to an asylum for imbeciles." This was the statement complained of.

Established a New Record.

Cincinnati, April 13.—The fastest race of the season was run over the Newport track yesterday and a new record for a mile and 60 yards on that course was established. Lupt made the remarkable time and did it with ease. She covered the distance in 1:43 flat, running the first mile in 1:39.

ABBREVIATED TELEGRAMS.

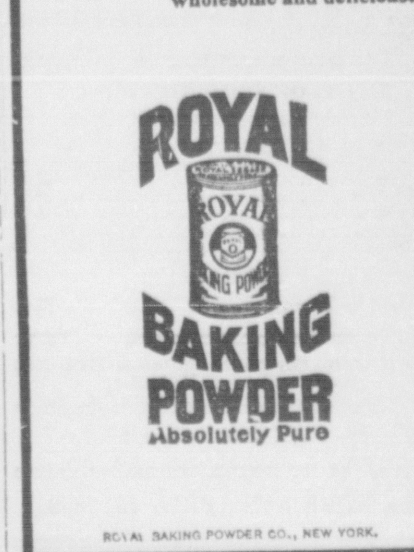

Cardinal Taschereau of Quebec, Can., is dead.

C. H. Grosvenor has been renominated for congress from the Sixth Ohio district.

Chicago, April 13.—Naugle, Holcombe & Co., railway contractors have filed a bill in the circuit court to rescind the contract by which, in July last, they sold a controlling interest in the Suburban Railroad company to Charles T. ## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

### CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two cent stamps to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its pinnances of this offer.
